PFS Update	Tom LaPorte: Handed out a brief overview of data collected Parents took surveys to get a sense of awareness level of the coalition and interests Survey sent electronically through the South Glens Falls school district list serve 44 people completed the survey who have a total of 81 kids in the district of 3100 students Survey response is far fewer than we would have liked Not a good sample size, group disappointed Difficult to get parents, maybe due to weather, many commitments Putting the Parent U's on Facebook live will be good and great for including other school districts and families from around the county Is the survey incentivized? Yes, for each survey completed \$2 was put into Marathon Can the survey be distributed during sporting events? Handed out by kids in various clubs? Would parent be more apt to fill out if kids were asking? Incentive would be a donation to club? The survey was at public events was by a QR code for parents to do on their phone Link to survey on CCFW Facebook page and School's Facebook page LED Sign has been approved for Prom season across from the High School to remind everyone to not drink and drive
